(*c*) A Court of Session, and two other Courts exercising First Class powers were instituted. The Sessions Judge was at the sametime invested with unlimited Civil powers and with the jurisdiction of a Court of Small Causes.

2. The following additions were made to the laws in force in the Station.

(1) Act III of 1869. Madras.
(2) Act XVI of 1874.

The total cost of the Force was Rs. 63,623 or Rs. 2,114 more than in the previous year.

4. The Returns show an increase of crime not under serious or minor offences but under other offences. This increase is accounted for by a more rigid enforcement of Sanitary Rules. Of the 1805 cognizable cases reported, 1475 were offences for Public and Local Nuisances.

5. Only 17 cases were struck off as false. The percentage of convictions to true cases investigated is 94·8 and the percentage of persons convicted to those arrested and put on trial 95·04. The percentage of 46 for the recovery of stolen property is also satisfactory.

6. The administration of Criminal Justice continues to be satisfactory. The receipts from Court Fees, Fines and Forfeitures amounted to Rs. 4,918—14—10 showing an increase of Rs. 929—5—10 over those of the previous year. The cost of the Criminal Courts amounted to Rs. 15,762—4—6.

7. During the year 2464 cases were brought to trial. Of these 2425 were disposed of, viz, 1436 in the District Magistrate's Court and 989 in the Court of the 2nd Magistrate. 14 cases affecting the same number of European British Subjects were brought before the District Magistrate, as Justice of the Peace.

8. The average duration of cases was.

(a) In the District Magistrate's Court 1·01 days
(b) In the Second Magistrate's Court 1 day.
(c) In the Sessions Court . . 11·75 days.
(d) do for Appeal cases . . 9·6 days.

9. In the Sessions Court 4 cases were brought to trial, and 10 appeals were heard. In the Chief Court 2 appeals from the Sessions Court 2 cases for revision rom the District Magistrate's Court, and 4 Miscellaneous Petitions were heard.

10. In connection with the administration of Civil Justice. The Receipts from Court Fees amounted to Rs. 23,298—11—8 or Rs. 1,346—12—8 more than in the previous year, while the total charges amounted to Rs. 24,684—3—11 or Rs. 2,146—1—10 less than those of the previous year.

There was a decrease of 282 in the number of Suits. 1,200 were instituted during the year. Of these 108 were Ordinary, and 1,092 were Small Cause Suits. Of the Suits disposed of 39·06 per cent of Ordinary Suits, and 34·43 of Small Cause Suits were decreed "ex-parte." The average duration of uncontested cases was 19·92. days, and of contested suits 30·63 days. The cost of litigation amounted on an average to Rs. 104—2—11½ in Ordinary Suits, and Rs. 9—3—0½ in Small Cause Suits.

11. There were 929 applications for execution of decrees, or 422 less than in the previous year. For these satisfaction was obtained in full for 346, in part for 76, and 461 were wholly infructuous. 46 applications had not been disposed of at the end of the year.

12. There were 28 appeals to the Resident's Court from the decrees of the Civil Judge representing property to the amount of Rs. 20,082—9—4. Of these 15 were confirmed, 2 were modified, 4 were reversed, 2 were remanded, and 5 were pending at the close of the year.

14. The vacancies which existed at the end of 1883 in the Municipal Commission have been filled up by election. They were allotted by Classes instead of by Divisions as before.

15. The actual Receipts of the Municipality amounted to Rs. 1,41,091 showing a net decrease of Rs. 4,065 from those of the previous year. This decrease was caused by a falling off in payments of Octroi duty, and Taxes on Houses, Buildings, and Lands. The expenditure of Rs. 1,55,297 shows an increase of Rs. 11,633. The increase was owing to extensive sanitary improvements, improved lighting, and a gratuity paid on retirement from the charge of the Bowring Hospital to Honorary Surgeon Pereira.

16. The Bowring Civil Hospital Establishment was satisfactorily reorganised during the year. The better working of the Hospital at a considerable monthly saving has been effected. The Dispensary opened during the previous year at Ulsur continues to be appreciated, and has been worked with success and economy.

17. The total rainfall for the year was 23·69 inches against 35 inches in 1883. The fall during the first half of the year was light, but seasonable rain from August to November saved the crops. The season was on the whole good, and the public health generally fair.

18. The total receipts at the Resident's Treasury amounted to Rs. 67,94,999 against Rs. 64,90,330 in the previous year. The disbursements amounted to Rs. 66,49,130 against Rs. 61,18,676. The closing balance at the end of the year, showed a surplus revenue of Rs. 7,41,655.

1558 deaths (763 males and 795 females) were registered giving a ratio of 16·66 per 1000 of population. The highest mortality was in the month of April, and the lowest in February.

21. The total number vaccinated during the year was 1597 or 145 less than in the previous year. The cost of the Establishment amounted to Rs. 221—6—0 and of each successful case to 3 annas 1 pie.

22. There are 68 Schools receiving aid from Government; during the year a Primary and Secondary School were added. The pupils have increased in number, from 3589 in the previous year to 3877, or at the rate of 8 per cent. The education of each pupil cost Rs. 21—12—11 for the year, of which Rs. 7—9—6 was defrayed from public, and Rs. 14—3—6 from private funds.

PART II.

I. PHYSICAL AND POLITICAL GEOGRAPHY.

FORM OF ADMINISTRATION.

1. The Civil and Military Station has continued to be administered by the Resident in Mysore in accordance with the instructions conveyed by the Government of India in 1881 when the Management of the State was restored to the Mysore Government.

II. ADMINISTRATION OF THE LAND.

2. Agreeable to the instructions of the Government of India, the administration of the land situated in the Civil and Military Station was placed in the hands of the Resident from 1st April 1884. The District Magistrate was at the same time appointed Ex-officio Collector, and the Second Magistrate who also holds charge of the Treasury Ex-officio Amildar. These officers were respectively empowered to exercise in the Civil and Military Station the same powers of a Collector and Amildar as are in force in the Mysore State.

3. The fourteen villages situated within the limits of the Station are assessed at Rs. 3,682—13—2; with the exception of two villages all have been surveyed, and the boundary marks are in good order. No lands were resigned during the year, but 1 Acre and 3 Goontas were taken up for cultivation at an assessment of Rs. 3-3-4 per acre.

III. PROTECTION.

COURSE OF LEGISLATION.

4. The powers of the High Court for the Civil and Military Station of Bangalore formerly vested in the Chief Judge of Mysore, were under the orders of the Government of India transferred to the Resident in Mysore with effect from the 28th May 1884. At the same time a Court of Session and two other Courts, exercising First Class powers, presided over by the District and Second Magistrate were instituted. The Sessions Judge was also invested with unlimited Civil powers and with the jurisdiction of a Court of Small Causes under Act XI of 1865.

5. The following legislative enactments were extended to the Station during the year:—

(1). Act III of 1869 (Madras)—An Act to empower Revenue Officers to summon persons to attend at their Cutcherries for the settlement of matters connected with Revenue Administration.

(2). Act XVI of 1874—Repeal of Obsolete Enactments.
(3). Act XI of 1881—The Municipal Taxation Act.
(4). Act III of 1884—The Criminal Procedure Code Amendment Act.

Owing to the recent changes in the legislative administration, it has been found necessary to revise some of the Regulations which were in force before the renditon, and so the formal declaration regarding the Rules and Regulations having the force of law has been somewhat delayed, and is still under consideration.

POLICE.

I. The State of the Station.

6. The jurisdiction of the Station Police extends over 12·40 square miles with a population of 93540 composed of—

(i) Europeans, Eurasians and Natives who are Government servants;

(ii) Do of various professions including merchants, artizans and labourers; and

(iii) Persons who need supervision by the Police.

7. The strength of the Police Force of the Civil and Military Station is 63 officers and 210 men, exclusive of 2 officers and 11 constables for duty on the Bangalore Branch of the Madras Railway which extends a few miles beyond the Kamasamudram Railway Station. This portion of the land is in addition to the above mentioned area forming the jurisdiction of the Station. The total cost of the Police was Rs. 63,623 or Rs. 835 in excess of the sanctioned allotment, owing to some of the charges being for the calendar, and not the financial year.

Out of the whole Force 64 officers and 159 men can read and write, while the others as usual attended the evening class of their respective divisions.

8. The following changes in the constitution of the force were sanctioned by the Government of India with effect from 1st July 1884.

The pay of all Inspectors, Sub-Inspectors and Chief Constables was made progressive, while the pay of some among them was increased.

One Chief Constable, Five 1st Class Serjeants, Five 1st Class Constables and Six 2nd Class Constables were sanctioned in addition, on account of the extra duties devolving on the Station Police.

II Discipline of the Force.

9. Eight Officers and 26 Constables were punished departmentally and 2 Constables judicially.

The above number includes 16 Constables with fine of less than one rupee. One for an assault on an arrested person, and one for giving false evidence in an octroi case to the effect that on a certain day he was on a certain duty, when for a fact he was not, at least he could not prove the assertion,—the accused in the octroi case was a friend of his.

The following is an Abstract Comparative Statement of Operations in regard to Crime, &c. in the Station.

Class.	No. of cognizable case reported both true and false.		No. of cases struck off as false.		No. of cases pending under investigation or trial.		No. of cases fully investigated as true.		No. of cases prosecuted to conviction.		Percentage of conviction to true cases investigated.	
	1883	1884	1883	1884	1883	1884	1883	1884	1883	1884	1883	1884
I. Offences against State, public tranquillity, safety and justice	...	1	...	...	...	...	...	1	...	1	...	100 * One acquitted.
II. Serious offences against person	16	11	4	3	3	..	9	9	9	7	100	77·7
III. Do against person and property, or property only	33	34	2	1	16	19	15	14	13	14	86·6	100
IV. Minor offences against person	4	1	...	...	...	...	4	1	3	1	100	100
V. Do against property ...	217	231	23	13	46	47	159	178	146	167	91·82	96·53
VI. Other offences not specified above	777	1527	1	...	23	15	759	1515	729	1481	94·72	97·75

Two hundred and seventy-eight cases were registered under the first five heads. Fifty-three cases were pending with the Police, 17 cases were struck off as false by order of Magistrate, and 13 cases were pending disposal by Magistrate.

In 190 cases convictions were obtained, and in 6 cases parties were either acquitted or discharged.

Under the last head VI, 1527 cases were registered as classified below :—

(*a*)	Vagrancy and bad character	.. 1
(*b*)	Offences against Gambling Act	.. 6
(*c*)	Do do Railway Act	.. 5
(*d*)	Do do Public and Local nuisances	1475
(*e*)	Other Special and Local Laws	..40

The noticeable increase under this head is due to the detailing daily of a few men in undress to pick up especially cases under Special and Local Laws, with a view of rigidly enforcing the sanitary rules, &c.

The percentage of convictions to true cases investigated is 94·85. A very satisfactory result. When compared with the results of 1883 there is a slight decrease but a proportionate increase is gained in the percentage of convictions to persons arrested.

11. Of the total number of 2021 persons arrested, 1933 were convicted, 21* released on bail and 7 were pending enquiry before Magistrate. The number convicted includes 15 persons for gambling, 1 for delivering counterfeit coin, * 15 for house-breaking and theft, 57 for thefts committed in European quarters and 40 against whom previous convictions were proved. The percentage of persons convicted to those arrested and put on trial is 95·64. It is therefore satisfactory and compared with the results of 1883 (*viz.* 94 per cent) shows a slight improvement.

* Of these, 3 for commissions in European localities.

12. The amount of property stolen during the year is Rs. 5,342 (this amount includes Rs. 3,481 stolen in 5 cases alone) against Rs. 4,163 of the previous year.

The amount of recovery of property during the year is Rs. 2499 against Rs. 1,429 of the last year. The percentage of recovery is Rs. 46 against Rs. 34 of the previous year showing a satisfactory increase.

CRIMINAL JUSTICE.

13. The Criminal Courts in the Civil and Military Station of Bangalore during the year 1884 were following :—

1 2nd Magistrate's (1st Class Magistrate's) Court.
1 District Magistrate's Court.
1 Sessions Court.
1 Resident's Court.

4

The receipts derived from court fees, fines, and forfeitures amounted to Rs. 4,918—14—10 against Rs. 3,989—9—0 in 1883, giving an increase of Rs. 929—5—10. The cost of the Criminal Courts was Rs. 15,762—4—6 against Rs. 15,514-0-3 in the previous year. The cost exceeded the receipts by Rs. 10,843-5-8.

The number of offences reported was 2442, as compared with 2008 in 1883 and the number of offences returned as true was 2420 against 1638 in the previous year. The increase in the number of true offences is probably due to a more vigorous application of the Police Act, the Municipal Regulations and the Bye-laws framed thereunder. 129 complaints were dismissed without issue of process under Section 203 of the Criminal Procedure Code.

14. The annexed statement compares the classification of offences brought to trial in 1883 and 1884.

	Against the State and Public Justice.	Against the person.	Against property.	Other offences under the Penal Code.	Offences under Special and Local Laws.
1	2	3	4	5	6
1883	14	464	193	62	917
1884	12	605	246	119	1482

There was an increase in the number of offences under all classes, excepting only those against the State and Public Justice; the increase is most notable in offences under Special and Local Laws. Only one case against five in the previous year of giving false evidence was brought to notice. This decrease may be attributed to the severe punishments awarded for the previous cases of perjury.

15. There were 6 cases of offences affecting life in which six out of the seven persons concerned were convicted.

16. The number of cases of hurt tried was 14. Of these 3 were for grievous hurt. In these cases 20 persons were concerned, of whom 9 were convicted, 9 acquitted or discharged, and 2 remained under trial at the close of the year.

17. The number of cases of theft was 152 against 133 in the previous year. Of the 178 persons concerned, 169 were convicted, 5 were acquitted or discharged, and 4 awaited trial at the close of the year.

18. 1482 cases under Special and Local Laws were brought before the Magistrates, against 917 cases in the previous year. The number of persons concerned was 2007. Of these 124 were acquitted or discharged and 1851 convicted.

19. The following statement shows the cases in which proceedings of a Miscellaneous nature under the Criminal Procedure Code were held in 1883 and 1884 :—

Frivolous and vexatious complaints decreased as also the compensation awarded for them which only amounted to Rs. 16—2—0. The average amount of maintenance granted to wives and children was Rs. 1—15—3.

21. The number of cases brought to trial, including 44 cases pending at the close of the year was 2464. Of these 2425 were disposed of, 1436 by the District Magistrate, and 988 by the 2nd Magistrate, leaving but 39 cases pending at the close of the year.

22. There were 66 persons awaiting trial at the end of the year, 30 in the Court of the District Magistrate and 36 in the 2nd Magistrate's Court.

The average duration of each case was 1·01 days in the Court of the District Magistrate, and 1 day in that of the 2nd Magistrate.

23. Fourteen cases affecting 14 European British Subjects were brought before the District Magistrate as Justice of the Peace, against twenty-five cases affecting 25 persons in the previous year. 49. Five appeals were pending at the close of the year.

The average duration of appeals was 56·43 days as against 29·3 days in the previous year. The increase in time was due to the Resident being unavoidably absent on tour for sometime, and to the circumstance that his Court only sits once a week.

The cost incurred by suitors in appeals amounted to Rs. 85—10—6 per suit.

Five miscellaneous appeals were filed during the year under review. Of these five were disposed of, and one left pending at the close of the year 1884. The average duration of time for their disposal was 29·25 against 19·8 in the previous year.

MUNICIPAL ADMINISTRATION.

53. The administration of municipal affairs in the Civil and Military Station of Bangalore has continued to be conducted under the Bangalore Municipal Regulations of 1883.

During the year under report the subject of introducing such portions of Madras Act I of 1884 as may be considered desirable into the Bangalore Municipal Regulations of 1883 has occupied the attention of the Municipal Commissioners, and at the close of the year a Sub-Committee was appointed to examine the Madras Act and report what sections of the Act should be extended to the Station.

54. The 11 vacancies in the Municipal Commission at the close of the previous year have been filled up by election, and the members so elected are to hold office, under the provisions of Section 5 of the Regulations, for 2 years from the date of their Election.

The composition of the Board as at present constituted consists of a President, 6 Ex-Officio Members and 18 Municipal Commissioners, and this latter number has been fixed under the provisions of the Election rules as sanctioned by the Resident, by Classes instead of by Divisions as heretofore.

55. The Budget Estimate of receipts for the year, including the balance of Rs. 29,047 carried over from the previous year, amounted to Rs. 1,83,151, while the actual receipts amounted to Rs. 1,70,138—6—1 or Rs. 13,012—9—11 below the estimate.

The following statement shows the actual receipts under the several heads during the years 1883—84 and 1884—85.

Total.....	1,45,156	1,41,091	2,929	6,994
Net Decrease.....	...	...	...	4,065

56. The import of excisable articles subject to Octroi duty has been considerably below the estimate, hence the decrease under this head; the reason assigned for this decrease is that some of the merchants hitherto importing excisable articles from Her Majesty's Territories have ceased to do so, and now deal largely in the local Markets within the Mysore Province. The full amount of duty levied on articles imported from Her Majesty's Territories is, under the provisions of late Chief Commissioner's Proceedings No. 4032-43—M. C. 201, dated 30th October 1879, carried to Municipal revenue, while one-half of the realizations on home grown articles is paid over to the Mysore Government.

57. The decrease under the heading of Taxes on Houses, &c. is accounted for as during the year a large number of the ryots residing in the villages and plying their carts for hire in the Station have sought and obtained a remission of the tax, on the ground that they have either disposed of their carts to ryots outside the limits, or ceased to work their carts in the Station. The Patails having in several cases after due enquiry reported that their statements were correct, remissions were allowed.

58. Under the heading of Taxes on Professions &c. there was an increase of Rs. 2,436, and a further sum of Rs. 1,960 was due from Government on account of the exemption of Military Officers from paying the Profession Tax. The slight decrease under Liquor License Fees was due to the refusal of the Collector and District Magistrate to renew licenses for two retail arrack shops, one beer tavern, and one shop for the sale of European liquors. There was however an increase in the receipts from duties on excess sale of Beer and Arrack.

59. In the Motucherry Pound there has been an increase of 25 per cent over the previous years collections, and in the Shooly Pound in which hitherto all stray cattle from Ulsur were impounded, the collections, notwithstanding the opening of a Pound at Ulsur during the past official year are nearly the same.

This improvement in the collections is attributed partly to the opening of the Ulsur Pound and partly to the sum realized by the sale of a disputed horse at Motucherry.

60. The decrease under the heading of Miscellaneous was chiefly owing to the following causes. The experiments set on foot during the past two years for the manufacture and sale of poudrette on the Poona system have been a failure, as the ryots do not seem to appreciate its value in improved cultivation, consequently there is little or no demand for poudrette, and its manufacture has been abandoned during the latter

part of the year. The collection of night soil in the Station is now being disposed of at the depots once a week by public auction.

During the year Licenses for Hackney Carriages were renewed under the old rates, as the proposed rules under the Hackney Carriage Act which provided enhanced fees received the sanction of the Resident late in the year, and could only be brought into operation from 1st April 1885.

61. The Land revenue for the year 1882-83, including arrears of previous year, amounting to Rs. 3,172-2-0 has been paid in, and the collections for 1883-84, 1884-85 still remain unpaid which accounts for the falling off under the heading of Transfers and Contributions.

62. The total expenditure under the several items as shown in the subjoined statement amounted to Rs. 1,55,297 or Rs. 11,633 more than that of the previous year. The cash balance at the close of the year was Rs. 14,841 or Rs. 14,206 less than that of 1883-84.

63. In the above statement of expenditure, the only items of increase which call for notice are VII Conservancy and XII Miscellaneous, (c) other Miscellaneous items. The increase under conservancy was due to the general sanitary improvements effected during the year in the Station. Under this item were included heavy charges incurred in white washing houses infected by Small-pox and in purchasing 20 additional conservancy carts. The increased expenditure under "other miscellaneous items" was due to the inclusion under this head of Rs. 1,989 on account of flushing drains in the Station. The charge was met from the head "Reserve" during the previous year. The sum of Rs. 1,200-0-0 paid as gratuity to Hon. Surgeon Pereira on retirement from the charge of the Bowring Hospital, as also the sum of Rs. 600-0-0 sanctioned as a grant-in-aid for the Station Band were also extra charges under the same head.

64. Under the heading of Miscellaneous (Reserve) the Expenditure shows a slight increase and consisted of charges incurred in the construction and maintenance of contagious disease camps and Small-pox camps; contribution towards the expenses of the Cubbon Park Fair, the construction of a Band Stand in Cole's Park and the fee of the Auditor of the Municipal Accounts for 1883-84.

65. The only item of decrease which needs mention is III. "Public Works (c) Repairs," under which head the expenditure amounted to Rs. 24,193 or Rs. 2,191 less than in the previous year. A sum of Rs. 21,104 was expended in opening out new roads, and repairing the old ones—14,447 running feet of Box and V drains were constructed and 3810 running feet of Sewers were diverted.

66. During the year the recommendation of the Residency Surgeon for the reorganization of the Bowring Civil Hospital Establishment resulting in a monthly saving of Rs. 94 in the cost of Establishment, and the introduction of a set of rules drawn up by that Officer for the better working of the Hospital has, with the sanction of the Resident, been adopted.

Under the sanction of Government of India, the Residency Surgeon was placed in Medical Charge of the Hospital on a monthly allowance of Rs. 200 and the working of the Hospital under the new arrangement has been satisfactory.

Considerable savings have been effected in the dieting charges, this saving has been applied to the carrying out of minor improvements to the Hospital buildings strongly recommended by the Residency Surgeon.

67. The total cost of the Ulsur Dispensary charges during the year amounted to Rs. 853-6-11 against a budget allotment of Rs. 1,216, the cost of Medicines supplied from the Mysore Medical Stores was defrayed from the amount drawn, and held in deposit from the previous years budget allotment, hence the saving under this head.

The Residency Surgeon having with the sanction of the Resident, made arrangements for procuring the Medicines required for the use of the Bowring Civil Hospital and Ulsur Dispensary direct from England, the Mysore Government will not be asked to supply Medicines on payment as heretofore.

68. To obviate the difficulty at present experienced in the daily conservancy of native houses in the Station by low caste Toties, on the score of caste objections, the right of removing night soil, filth &c., from these houses daily was, as a temporary measure, leased out to caste ryots in the General Bazaar Division on a montly contract of Rs. 2 per block consisting of 70 houses, and as the system is found to work satisfactorily it is proposed to extend the same from the commencement of the ensuing year throughout the remaining Divisions. By this arragement a saving of Rs. 3,960 is calculated under head Cart hire, and Rs. 3,780 in the Scavengering Establishment.

69. The total number of lamps lit in the Station on the 31st March was 538.

During the year 1 ornamental and 25 ordinary lamp posts were purchased at a total Cost of Rs. 842-7-0 and put up in the localities where they were badly wanted. The Contract rates of lighting from 1st January to 31st March 1885 are—

For Silber lamps at Rs. 1-6-0 per mensem, Ordinary lamps at Rs. 1-3-0 per mensem, and the hours of lighting from 6 P. M., to 4 A. M., all the year round.

70. The arrangement by which the collection of the octroi revenue of the Civil and Military Station, and the Petta of Bangalore was made since the Rendition with the mutual consent of the Resident and the Mysore Durbar, was continued during the year. The following statement shows the quantity of the articles imported into both Municipalities, and the amount of duty levied during the year under report.

71. The total amount collected for Municipal taxes during the year was Rs. 79,919, of which Octroi contributed Rs. 44,488, Tax on Houses &c. Rs. 32,416 and Tax on Arts, Professions &c. Rs. 3,015. The incidence per head of the population was Rs. 0-13-7 against Rs. 0-14-1 in the previous year.

72. Small Pox was prevalent in the Station. Out of 824 cases 220 proved fatal. A sum of Rupees 436-7-11 was expended in fumigating the localities where small pox was prevalent. The number of persons vaccinated during the year was 1597 against 1722 in the previous year of which number 1302 proved successful.

73. The number of deaths from various causes registered during the year were 1558 against 1619 in the previous year showing a ratio 16·66 per mille of population.

MILITARY.

74 The strength of the Bangalore garrison, both European and Native at the end of the year amounted to 4222 combatant officers and men; at the end of 1883 it was represented at 5626. This decrease in strength was unavoidable owing to the de-

parture on active service of the 1st Battalion Oxfordshire Light Infantry to Quetta and the F. company of the Queens' Own Sappers and Miners to Suakim. The total cost of the Force including contingencies amounted to Rs. 16,58,788.

75. During the year the 4th Regiment, Madras Native Infantry (Pioneers) was relieved by the 1st Madras Pioneers from Quetta, and the 15th Native Infantry by the 12th Native Infantry from Palaveram.

76. The returns for the Bangalore Rifle Volunteers show an increase in the numbers of extra efficients, and efficients and a considerable decrease of non-efficients. The total strength of the Force was 422 or 25 less than in the previous year.

IV. PRODUCTION AND DISTRIBUTION.

AGRICULTURE.

77. No particulars have been submitted. The area of arable land is limited and is mostly utilized by market gardens and the cultivated enclosures round dwelling houses. The revenue amounted to Rs. 3,682 showing an excess of Rs. 18 over that of the previous year.

WEATHER AND CROPS.

78. The climate of the Station for the period under review was very similar to that of the previous year. The south-west monsoon set in on 7th May, the rain-fall however fell far short of the average during the succeeding three months and it was feared that there would be a complete failure of the rains, but in September as many as 5 inches and 12 cents were registered followed by 6·1 in October and 2·97 in November, so that the season was on the whole good and beneficial to crops, and the public health generally fair.

The following table shows the mean temperature, humidity per cent and rain-fall of each month during the year :—

Months.	Mean Temperature.	Humidity per cent.	Rain-fall.	
			Inches.	Cents.

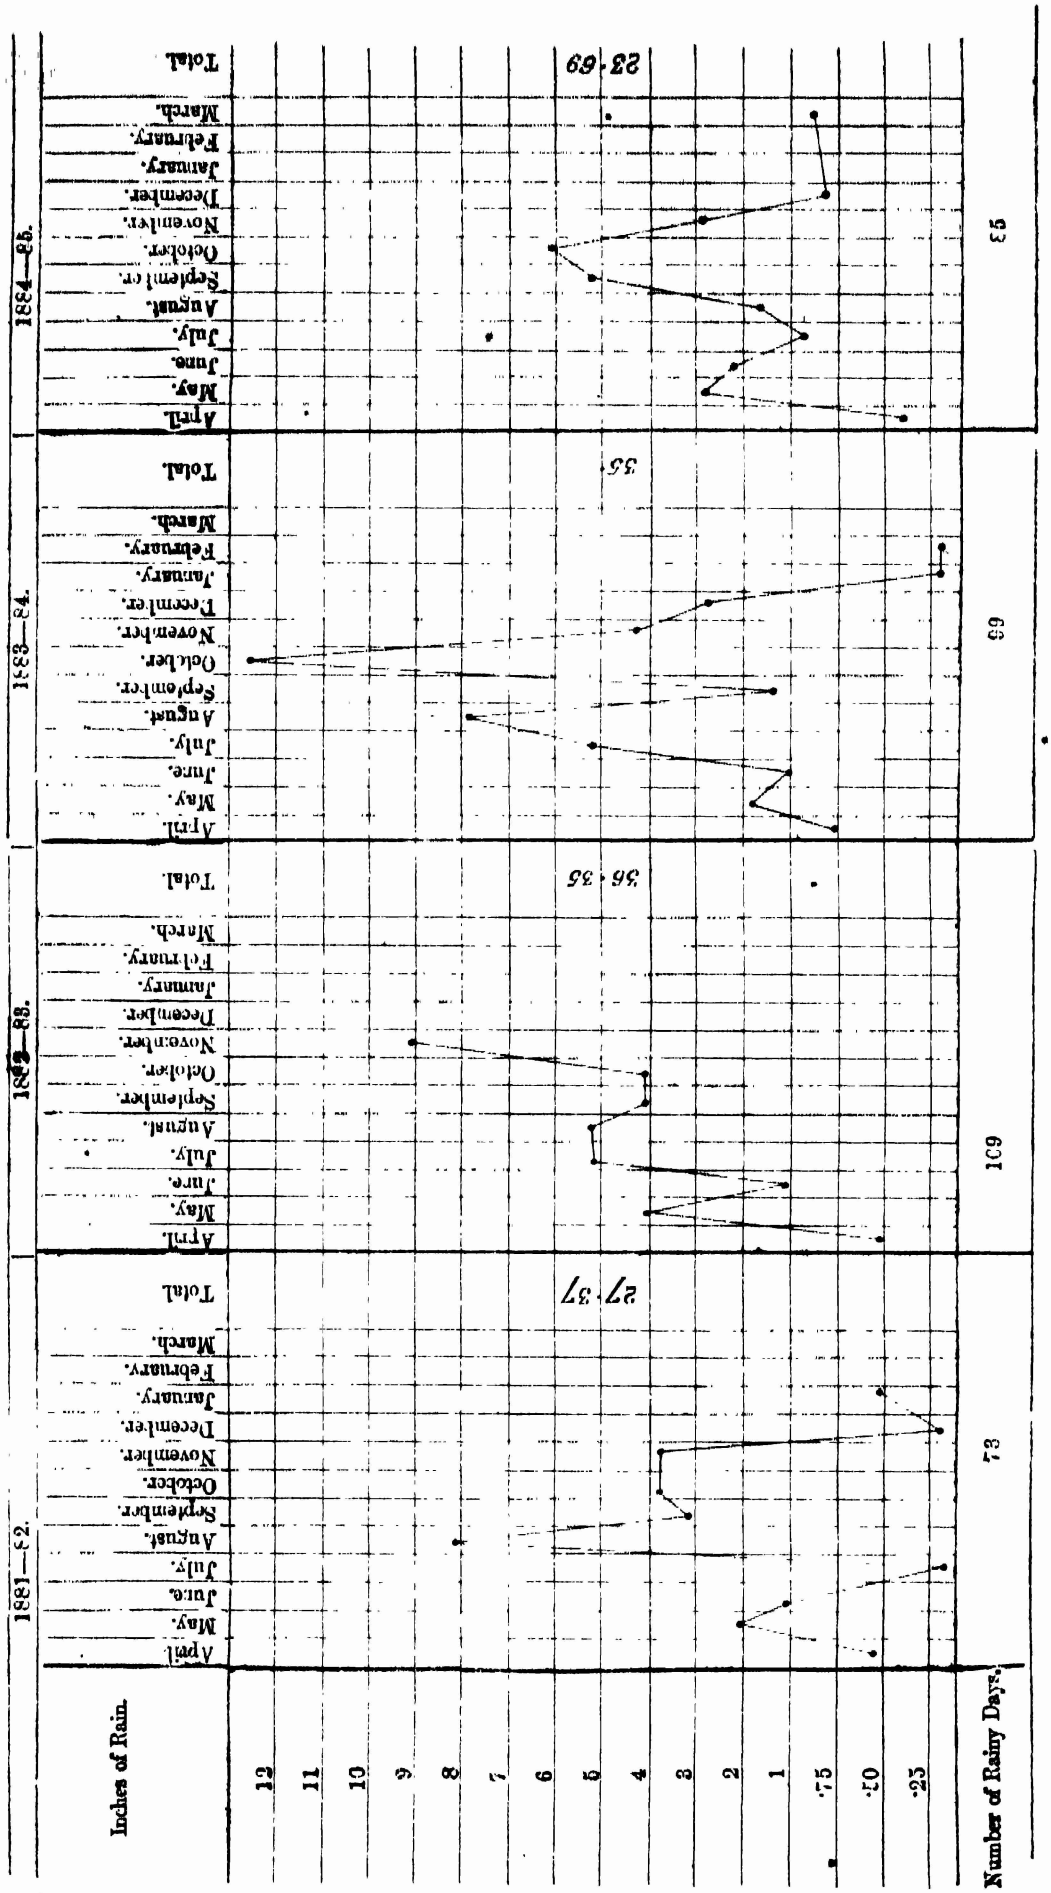
The mean temperature was 72·7 against 72·0 and the humidity was 62 per cent against 65 during the previous year.

79. The total amount of rain gauged at the Bowring Civil Hospital was 23·69 against 35 inches in 1884. Rain fell on 85 days against 99 in the previous year. The heaviest rain-fall was in October.

80. The following chart will show the rain-fall for the past four years:—



TRADE.

81. The statement III. I in the Appendix gives particulars of the quantity, and approximate value of articles imported, and exported during the past year. This is the first year in which any statistics have been supplied.

MANUFACTURE.

82. The only manufactory of any importance in the Civil and Military Station is the Woollen, Cotton, and Silk Mills. The concern is worked by a company with a capital of Rs. 40,000. About eighty-five persons are employed daily. During the past year 37651 lbs. of yarn valued at Rs. 23,532 were turned out.

V. REVENUE AND FINANCE.

IMPERIAL.

83. The receipts of the year under all heads in the Resident's Treasury amounted to Rs. 67,94,999 against Rs. 64,90,330 in the previous year. The disbursements amounted to Rs. 66,49,130 against Rs. 61,18,673 in 1883-84. There was thus an excess of receipts over charges amounting to Rs. 1,45,869 in 1884-85, which, added to the opening balance of Rs. 5,95,786 on the 1st April 1884, raised the closing balance of the 31st March 1885 to Rs. 7,41,655.

84. The total revenues of the year, excluding those realized in the Civil and Military Station, as also those realized by the Military, Postal, Public Works and Telegraph Departments, amounted to Rs. 27,75,131 against Rs. 27,81,279 in the previous year as shown below :—

	1884—85	1883—84
Subsidy from the Mysore State	24,50,000	24,50,000
Interest on the Loan of 80 lakhs granted to that State	3,13,472	3,16,800
Subscriptions to the Military and Medical Retiring Funds ...	3,315	3,589
Sale of Court Fee Stamps	2,669	4,953
Fees for the Uncovenanted Civil Service Examinations	2,482	2,631
Lunatic Asylum receipts, Medical College fees, &c.	2,043	1,750
Other Miscellaneous receipts	1,150	1,556
Total Rs.....	27,75,131	27,81,279

The decrease during the year is due partly to a decrease in the amount of the interest received on the Mysore loan, concurrent with a decrease in the principal, and partly to a falling off in the sale of court fee stamps.

85. The total expenditure under service heads, omitting that of the Civil and Military Station and of the Departments specified above, is shown below and compared with that of the previous year :—

	1884—85	1883—84
Salaries and Allowances of the Resident, Assistant Resident, Surgeon and Treasury Officer	70,638	69,398
Establishment	20,635	20,375
Travelling Allowances, Contingencies, &c.	7,598	9,105

Allowances of officers of other Districts on leave in Bangalore ...	7,727	5,152

Charges for State prisoners, &c.	...	9,350
Sundry other charges	8,569	6,973
Total Rs.....	3,33,684	2,50,015

86. The main causes of variation lie in (i) the decision of the Secretary of State to abandon all claims against Mysore on account of the services of British officers lent to that State up to 30th September 1882, and the orders of the Government of India refunding the whole amount of leave allowances, &c., previously recovered from the State in respect of those services; (ii) the transfer of State prisoner Daudshah from Bangalore at the close of 1883—84; (iii) the arrear payments of certain political pensions in 1884-85 on account of previous years; and (iv) larger savings from absence of Chaplains on leave to Europe.

87. The following table gives particulars of the receipts and charges at the Resident's Treasury other than those shown above in paras 84 and 85 :—

LOCAL.

88. The gross revenue of the Civil and Military Station for the year 1884-85 amounted to Rs. 3,22,540 against Rs. 3,15,856 in the previous year. After deducting Rs. 5,879 the total charges against income, the net receipts amounted to Rs. 3,16,661 or Rs. 7,879 more than the net receipts of 1883-84. The expenditure under all heads amounted to Rs. 1,40,085 against Rs. 1,42,571 in the previous year and the balance to Rs. 1,76,576 or Rs. 10,366 more than in 1883.

The subjoined abstract statement gives the particulars of net receipts and expenditure during the year under report :—

VI. VITAL STATISTICS AND MEDICAL SERVICE.

BIRTHS AND DEATHS.

89. The number of births registered in the Station during the year under report was 2089 against 2292 the previous year, giving a ratio of 22·33 against 24·53 per 1000 of population. Of the total number of births, 1105 were males and 984 females, the males showing a proportion of 112·39 to every 100 females born against 110·27 during the previous year. Births exceeded deaths by a ratio of 5·68 per 1000 of population or 1·54 less than in the previous year.

90. The deaths registered during the year were 1558 against 1619 the previous year, giving a ratio of 16·66 against 17·31 per 1000 of population. Of the total number of deaths, males contributed 763, while amongst females there were 795 or 32 in excess of the former, the reverse being the case in the previous year. The highest mortality (228) was in the month of April and the lowest (75) in February. The

largest number of deaths occurred among infants of one year and under, of which there were 237 males and 229 females, and the lowest among children between the ages of 6 and 12 years, there being 23 deaths among males and 35 amongst females.

91. The following is a comparative statement of deaths from different causes during the year under report with those of the previous year together with their ratio per 1000 of population :—

Diseases.	1883—84.			1884—85.		
Cholera	2	or	·02	10	or	·10 per 1000
Small-pox	125	„	1·34	220	„	2·35
Fevers	285	„	3·05	357	„	3·81
Bowel-complaints	218	„	2·33	153	„	1·63
Injuries	26	„	·28	23	„	·24
All other causes	963	„	10·29	795	„	8·53

92. The mortality was highest under the head of fevers which gave 357 deaths or a ratio of 3·81 per 1000 of population. The next in numerical order was small-pox with 220 deaths against 125 during the previous year or a ratio of 2·35 per 1000 of population against 1·34. The greatest number was in April when it rose as high as 98. Bowel-complaints contributed 153 or a ratio of 1·63 per 1000 of population as compared with 2·33 in the previous year. Of the 10 deaths from cholera, 3 took place in the Bowring Civil Hospital, 1 in the Sapper Hospital, 1 in the 15th Regimental Hospital, 1 in the North Station Hospital, 2 in the South Station Hospital, and of the 2 remaining cases 1 occurred in Subbaraya Chetti's chuttrum and the other in old Koracharpalya. With the exception of one case admitted to the Bowring Hospital, which was that of a traveller from Erode, all the above noted were residents of the Civil and Military Station. During the prevalence of the disease preventive measures were taken by the Municipal authorities to check its progress, and it is believed that their exertions were attended with success.

Fevers and bowel-complaints being more or less prevalent throughout the year, the cause may, for the most part, be attributed to the bad water supply of the Station.

MEDICAL RELIEF.

93. In addition to the Bowring Civil Hospital, the small dispensary which was opened at Ulsur in March 1884 continued to afford medical relief to the people living in that locality and adjacent villages throughout the year. The total number treated in the Ulsur Dispensary during the period under report was 5897, of whom 2285 were men, 1504 women and 2108 children. The average daily attendance amounts to 64·74, that of Hindus predominated over all other classes. Fevers, bronchial and bowel-complaints, ear, ophthalmic and skin affections were the most common diseases. Remittent fever was prevalent from June to September, but only one case proved fatal. Eight cases were treated for small-pox with one death. No deaths were registered from cholera.

94. The sub-joined table exhibits the most common diseases treated in the Bowring Civil Hospital with the number of deaths and percentage for the last five years:—

Diseases.	1880.			1881.			1882.			1883.			1884.

It will be seen that the admissions from fevers were 574 less than in 1883. Of respiratory affections, there were 1448 or a decrease of 257 as compared with the previous year. The number of admissions from diarrhoea and dysentery was 687 and 405 or a decrease of 317 cases in the former and 120 in the latter, with 31 and 8 deaths respectively. The majority of the casualties occurred among paupers and destitutes picked up by the Police in the bazaars and streets, and brought to hospital either in a dying or hopeless condition from privation and disease.

Eight sporadic cases of cholera, and 57 cases of small-pox were treated with 2 and 7 deaths respectively.

95. During the year under report 1442 cases were treated as in-patients against 1662 the previous year. The falling off of 220 cases is due to the hospital having undergone a thorough system of reorganization towards the last quarter of the year whereby the Honorary Surgeon in charge was removed and his place filled up by the Residency Surgeon who now, in addition to being Superintending Surgeon, is also the Medical Officer in charge of the Bowring. The reorganization was also intended to exclude from the hospital wards all those who had no legitimate claims to admission, such as the destitute and half starved, but not sick, who formerly made the institution a place of refuge. There were 20355 out-patients treated at the dispensary during the year against 24733 for the corresponding period of 1883. This decrease of 4378 in the number of cases treated may be accounted for by the establishment of the dispensary at Alsur, where an attendance of 5897 sick as already alluded to, were treated during the nine months ending with December 1884.

96. 49 major and 98 minor operations were performed during the year in the in-patient, and 622 minor operations in the out-patient departments of the hospital with satisfactory results. 41 major operations, and all the minor operations proved successful.

97. An European Serjeant was entertained towards the close of the year to attend to the general sanitation of the hospital, and control of the servants placed under his orders, as well as to the maintenance of such discipline as was considered necessary for the well-being of the sick. So far his appointment has been productive of much good to the institution.

SANITATION.

98. The Municipal Commissioners paid every attention to the sanitation of the Station during the year under report. To obviate the difficulty experienced in the daily conservancy of native houses by low caste men on the score of caste objections, the right of removing night soil, filth &c. was, as a temporary measure, leased out to caste ryots in the General Bazaar Division, and as the system has been found to work satisfactorily, the Commissioners contemplate extending the same throughout the Station. Two small-pox camp sheds were constructed and maintained during the year as the accommodation in the Bowring Hospital for persons suffering from that disease was found insufficient. Streets in the crowded localities were fumigated during the prevalence of small-pox.

Some new roads were opened and an expenditure to the extent of Rs. 9,724 was incurred by the Municipality during the year in the construction and repair of drains of which the principal work was the diversion of the Shoolay main sewer. A few wells were also sunk and many old ones deepened, and it is hoped that much will be done during the year under report to improve the water supply of the Station.

VACCINATION.

99 The two Vaccinators in the employment of the Municipality performed the entire work allotted to them among the civil population, but an additional Vaccinator was sanctioned by the Board as a temporary measure to meet extra calls during the prevalence of small-pox at the close of the year. Attempts were made to inoculate calves from small-pox lymph, but proving unsuccessful, were abandoned.

100. The total number vaccinated during the year under report was 1597 against 1722 in previous year. The successful cases from primary vaccination were 1205 against 1250 or 81·24 per cent of total vaccinated, or 13·98 per mille of population. The average number vaccinated by each Vaccinator was 799. Of these 126 cases were re-vaccinations, of which 96 proved successful.

According to age, out of the total number of successful cases under primary vaccination, 819 were under 1 year, 363 were between 1 and 6 years and 23 were above 6 years.

According to sex there were 820 males and 777 females out of total number of cases vaccinated during the year under report.

101. The total cost of the establishment amounted to Rs. 221—6—0 including the sum of Rs. 11—6—0 paid as rewards to the parents of children vaccinated. The entire cost was as usual borne by the Municipality. The cost of each successful case was 0—3—1 or 3 pies more than last year.

VII. INSTRUCTION.

EDUCATION.

102. The number of schools receiving aid from Government now stands at 68 the addition of 2 since last year being due to the sanction of a grant to St. Mark's, which includes a Secondary and a Primary School. The total number of pupils under instruction has risen from 3589 to 3877, an increase of 8 per cent, or nearly double the rate of the year previous.

There are 43 schools for boys with 2580 pupils, and 25 schools for girls with 1297. The return of scholars according to race or creed gives the following results :—1363 are Europeans and Eurasians, 650 Native Christians, 1380 Hindus and 484 Mahammadans.

103. The following table shows the classification of the schools and pupils, and compares the figures of the past and present years.

104. The annual inspections of the European schools were conducted in accordance with the provisions of the Code tentatively issued by the Government of India for such institutions. The Code has since been revised by a Committee appointed by the Government of India, and several important modifications have been made which seem to render it more applicable to the local wants of Bangalore. The adoption or rejection of the Code will call for decision during the coming year. No formal opinions regarding its working have been received from the managers of the institutions affected, which may probably be accepted as an indication that no serious objections are entertained against it.

105. *Financial Statistics.*—The amount expended in grants from Government was Rs. 29,430, while the private expenditure came to Rs. 55,134, of which school fees contributed the sum of Rs. 29,979. As compared with last year, there was a falling off in the amount realized from school fees of Rs. 247, which was entirely due to falling off in St. Andrew's Schools. These have now been rectified by the Chaplain, who has found it necessary to appoint a new Head Master to the Boys' School, and, owing to the death of the lady in charge, a new Head Mistress to the Girls' School. The present arrangements have it is believed placed the institution again on a sound footing. In the expenditure from private sources on all schools there was also a decline of Rs. 1,275.

106. The distribution of expenditure on the different grades of instruction and among the various religious denominations differs very slightly from that shown last year. It is unnecessary therefore to repeat the tables then given. Taken altogether, the education of each pupil cost Rs. 21—12—11 for the year, of which Rs. 7—9—5 was defrayed from public and Rs. 14—3—6 from private funds. Or in other words, each pupil paid in fees Rs. 7—11—8, receiving aid from Government of Rs. 7—9—5 and from private contributions of Rs. 6—7—10.

107. *Colleges.*—Bishop Cotton's passed one candidate in the First Arts Examination out of 2 sent up, and St. Joseph's two out of 5 sent up, all in the second class. No change of importance has taken place in the management of these institutions during the year, but the new buildings for St. Joseph's have been brought to completion. The students in the two colleges at the end of the year number 30, and include 13 Europeans, 1 Native Christian, 15 Hindus and 1 Mahammadan.

108. *Secondary Schools.*—In the Matriculation Examination there were 45 candidates (40 boys and 5 girls), of whom 24 (21 boys and 3 girls) were successful. The following were the numbers passed from the schools represented:—St. Joseph's 9, St. Andrew's 7 (including 1 girl), Bishop Cotton's 5 (including 1 girl), St. Mark's 1, Baldwin 1, and Convent 1 (a girl). Bishop Cotton's and St. Mark's had each 1 in the first class, all the others passed in the second class. In the Higher Examination for Women 4 took a first class, 4 a second class, and 2 passed in needlework only. The schools from which they appeared were:—Convent 3, (one a teacher) Bishop Cotton's 3, St. Mark's 1, St. Andrew's 1. There were, besides, 2 private students.

109. For the Middle School Examination 99 boys and 26 girls appeared, of whom 37 boys and 17 girls passed, 4 of the former and 3 of the latter being placed in the first class. The boys passed from the following schools:—St. Joseph's 12, Bishop Cotton's 9, Broadway 4, London Mission 4, Baldwin 2, St. Mark's 2, Chatur Veda, St. Mary's, Hindu and Narayanswami's each 1. The Girls passed from Bishop Cotton's 9, Convent 2, St. Francis Xavier's 2, St Andrew's 1, St. John's 1, while 2 were private pupils.

110. *Primary Schools.*—The Special Upper Primary Examination was passed by 8 boys and 20 girls. The boys came up from Bishop Cotton's 6, and Baldwin 2: the girls from Bishop Cotton's 10, Convent 3, Baldwin 3, Wesleyan 2, private schools 2. At the inspection of schools other than those for Europeans, 146 boys and 36 girls were presented for the Upper Primary Standard, of whom 76 and 19 respectively passed; while for the Lower Primary Standard 227 boys and 245 girls were presented, of whom 93 and 44 passed.

111. *Unaided Schools.*—The particulars relating to these schools are of some interest, as showing the amount of private instruction at work unconnected with Government. The total numbers returned are 55 schools with 1864 pupils. There are 46 schools for boys, with an attendance of 1440 (including 4 girls in the Hindustani schools), and 9 schools for girls, with an attendance of 424 pupils, of whom 75 are boys. The following statement shows their distribution according to the languages which form the principal medium of instruction in each.

112. A review of all the known means of instruction, therefore, in the Civil and Military Station of Bangalore shows that there are 123 schools or departments of

schools in operation with 5741 pupils attending them. These figures do not include the Regimental schools, which are under the Superintendent of Army Schools. Were the sum total increased by the addition of the latter, it would furnish evidence of the extensive agency labouring in this Station for the education of the young. Indeed it is difficult to conceive that any classes of the population whatever are without some opportunities of obtaining instruction for their children.

LITERATURE AND THE PRESS.

113. The number of publications registered was 58, which shows a good advance upon 35 of the previous year. The works included 8 in English, 15 in Kannada, 17 in Hindustani, 2 in Sanskrit, 3 in Persian, 2 in Arabic, besides 11 bilingual publications, 5 of which were in English and a vernacular, and 6 in an Indian Classical Language with commentary in the vernacular.

The subjects treated of were principally Language, under which head there were 15 publications, and Religion, which had 13. The other works came under the following heads :—Biography, Law and Miscellaneous, 5 each ; Drama, Fiction, Medicine, 3 each ; History and Natural Science, 2 each ; Poetry and Mental Science, 1 each. There were no works of special scientific, historical or antiquarian interest.

114. The number and work of the printing Presses remain as reported last year. There are 16 Presses of which 7 are worked by Mahomedans.

IX MISCELLANEOUS

ECCLESIASTICAL.

115. ROMAN CATHOLIC MISSION.—There are four parochial churches in the Station, besides a large Chapel attached to the Convent and three smaller ones attached to Educational Institutions. In connection with the Cathedral in Shoolay a library and recreation room are maintained for the use of Roman Catholic Soldiers, the members of the Temperance Society.

116. Sixteen European Missionaries and two Native Priests are employed by the Mission in educational or parochial work. They are subject to the Bishop, Vicar Apostolic of Mysore and Coorg, who has his Head-Quarters at Bangalore.

117. In the Ecclesiastical Seminary 27 boys were boarded. In St. Joseph's College boarders were also received, this College has a staff consisting of 6 Priests and 12 Lay Teachers and Munshis, 382 Scholars of all denominations are on its Roll, and of these 19 composed the Senior and Junior F. A. Classes. Attached to St. Francis Xaviers Church, is an aided School for European girls, where 70 girls under the instruction of 3 Mistresses are educated. There are also two Tamil Schools one for boys and one for girls, the pupils in which number 95 and 39 respectively. These Schools are supported by the Parish without any Government aid. The Middle School attached to St. Patrick's Cathedral is kept up chiefly for the education of boys in the Cathedral Orphanage. On an average there are 80 orphans in this institution, the School is also attended by 130 Eurasian lads. The Native Parish in Shoolay maintains 3 Boys', and one Girls' Schools the pupils numbering 115 and 40 respectively. The Anglo Vernacular School at Blackpalli has on its Rolls, 160 boys and 70 girls. This institution is worked by 13 teachers and is much appreciated by the Natives on account of the successful teaching of the Christian Brothers. There is also in this Parish an orphan asylum containing 21 boys.

118. Five Orphanages are supported by the Roman Catholic Mission, in the Civil and Military Station, three for Europeans and Eurasians, and two for Natives; in the former there are 213 orphans including 25 children of Soldiers, and in the latter 209 orphans. During the month of June 150 famine orphan boys were sent to farms connected with the Mission, and 17 girls were married during the year.

119. The Catholic Press on St. John's Hill executes all the printing of the Mysore Mission. It also undertakes work for the public both in English and in Canarese.

120. The Sisters of Charity at the Bowring Hospital have during the year continued their good work of incessant nursing to the satisfaction of their superiors, and have won the respect and affection of all their patients.

One of their members while nursing a patient was attacked with cholera, and died. Owing to want of hands, their refuge for infant foundlings had to be closed.

121. In connection with the Catholic Mission in Bangalore there is a large institution known as the Convent of the Good Shepherd conducted by a Lady Superior assisted by twenty-four nuns. There are ten distinct classes or departments in this Establishment, which are briefly particularized below :—

A Boarding and Day School for girls.—This school has an average attendance of 100 children who are taught up to the Matriculation Standard. Music and Drawing are also taught.

An Orphanage for Eurasian children.—The inmates, including the children of deceased soldiers, vary in number from 70 to 80. The girls remain in the Orphanage till provided with situations as teachers, ladies maids or companions, &c. There is also an Orphanage for Eurasian and Native children of the lower classes in which above 200 children are cared for.

A Reformatory for Native women and girls.—Containing about 80 inmates.

A "Home" for destitute European and Eurasian women.—The inmates vary in number from 40 to 50 and are occupied in needle work, &c.

A Magdalen class.—This class forms a separate religious community. There are 13 inmates who are employed in plain and fancy needle work, &c.

An Infant Asylum.—This institution was established two years ago. There are at present 25 foundlings in the asylum varying in ages from 1 month to 6 years. They are under the care of special nurses.
